PRIVATE DINING

In our comprehensive examination of your venue, we observed that your restaurant possesses a **designated private dining** or hire space.

Despite the presence of these remarkable private areas, ideally suited for catering to the discerning needs of your **high-end clientele**, we noted a lack of spectacular **visual representation** on your website.

Our distinctive approach to showcasing exclusive venues addresses this gap, offering your customers a **360° panoramic** and a virtual **3D walkthrough** of the entire restaurant, significantly enhancing **visibility** and facilitating **increased bookings for private dining**.

Our unique feature not only grants customers a visual tour of the private dining space but also enables them to book the spot seamlessly. This functionality empowers all your restaurants to elevate visibility, foster **increased customer interaction**, and gain a **competitive advantage** in the **dynamic tourism market**.

By leveraging our platform, your high-end establishments can **strategically** position themselves to thrive in an increasingly competitive landscape, where visual representation and **customer engagement** play pivotal roles in **driving success**.

The image shows the interior of a restaurant with a modern, industrial aesthetic. A large, illuminated tree stands in the center, surrounded by tables and chairs. The ceiling features a large, ornate chandelier and a series of hanging lights. The walls are dark, and there are large windows on the left side. The floor is made of wood. In the foreground, there is a dark, geometric overlay with the text "GROUP BOOKINGS".

GROUP BOOKINGS

Group Bookings and **Parties** play a crucial role in a **venue's net profit** but can pose challenges if not managed properly. The lack of a dedicated system for **handling large party bookings** often results in **unsatisfied guests** and **negative online reviews**, harming a venue's reputation.

Presenting a specialized platform **tailored** for the **efficient management** of large group and corporate bookings/orders. Our **interactive interface** captivates the audience with **360°-degree views**, interactive 3D walkthroughs, and cutting-edge videography.

Through our unique platform guests can interactively walk through the venue as if they were **virtually there**. Pick an area where they would like their party to be seated and **book** that precise **table/area** for their event.

PRE - ORDER & SPLIT THE BILL

Handling a large booking of 25 or more guests presents significant challenges for the restaurant, particularly in managing **individual dietary requirements**. To ensure a seamless dining experience, the restaurant must receive guest orders at least **48-72 hours in advance**. This lead time allows the kitchen to adequately **prepare** for the **large group**, ensuring that the food is delivered to the table promptly, even during **peak operational periods**.

Currently, venues rely on **manual processes**, using **spreadsheets** to communicate with organizers and gather meal preferences from guests. This method often leads to **errors in food orders** and **delays** during **guest arrivals**.

The **budgeting** aspect further complicates matters, as organizers may opt for a **split bill**, causing **discrepancies** in payments.

This can result in individuals paying the same amount despite variations in their orders or budgets being exceeded. Addressing these challenges and implementing an **automated system** for handling group bookings could greatly enhance the **efficiency** and **success** of **venues**.

Our system offers a **distinctive** and **reliable** solution to address the aforementioned challenges through our **Pre-order** and **Split-The-Bill** features. Here are the unique features:

- **Group Booking Feature:** Venues maintain full control, automatically activating the Group Bookings option for guest figures between 6-8.
- **Pre-Order Feature:** Guests can pre-order meals from Set Menus, Party Packages, or À la Carte Menus, configured through the CMS by the venue admin.
- **Plus One Feature:** Guests can invite partners with a +1 option, allowing them to pre-order meals alongside the main guest.

- **Split The Bill Feature:** Enables block payments or bill splitting, providing organizers control over the group bookings budget.

- **Set Menu Feature:** Guests can efficiently pre-plan events and budgets. Venues access guests' pre-orders, printed upon arrival, with noted allergies by guest name. Guests receive email receipts for pre-orders, ensuring accuracy,

- **CSM For Group Bookings Feature:** Venues receive comprehensive information, including names, +1 details, and allergies for the entire group order, eliminating errors in food orders and allergies.

VIP TABLES

Our platform offers a sophisticated solution to **elevate** your **venue's visibility** and engage a discerning high-end audience.
